### THE WASHINGTON WIRE.

PROCEE 'IGS OF THE NATIONAL HOUSE AND SENATE.

The President's Message is Taken Up in the House and Referred to the Committee on Ways and Means-Resolutions Introduced in the Senate-Other News.

WASHINGTON, Jan. 12.—In the senate today, after the introduction of a variety of petitions, Mr. Maulsbury introduced a rosolution to declare that this government shall take no further steps to bring about an international agreement as to gold and silver

Mr. Hoar introduced a resolution calling upon the president for the reports and accompanying documents submitted by the Pacific rnilroad commission.

Mr. Hali called up his resolution for an inquiry as to whether the president has fulfillied his promise not to make dismissals except for cause and to prevent interference of Federai officials in iocal politics. He made a long speech arraigning the administration for violations of these declarations.

Mr. Bulier offered a resolution of laquiry as to the amount of school lands granted to

Mr. Hale kept the floor until 2:45, when Mr. Coke took the floor in opposition to the Blair educational bili.

The senate at 3:45 adjourned until to-

### The House.

WASHINGTON, Jan. 12.-The speaker, as the first business in order, proceeded to call the committees, but no reports of any character were submitted. The house then, on motion of Mr. Mills, went into committee of the whole, Mr. McCreary, of Kentucky, in the chair, upon the state of the union, for the consideration of the president's message.

Mr. Mills offered a resolution referring the

message to the committee on ways and means. The resolution was agreed to, and the committee having risen its action was confirmed by the house.

Mr. Randali, from the committee on appropriations, reported a resolution which was adopted, calling on the secretary of the treasury for a schedule of all ciaims allowed by the treasury department under appropriations, the balances of which have become exhausted or carried iato the surplus fund.

The house then went into committee of the whole on the little deflency bill. The discussion on the bili because political, and was participated in by Messrs. Randali, Burnes, Milliken, Henderson and Reed. The Republicans blamed the Democrats for failure to pass the deficiency bill last winter in time to become a law.

### Constitutional Amendment.

Washington, Jan. 12.—Representative Phelan, of Tennessee, has introduced in the house a joint resolution proposing the following amendment to the constitution,

"Article XVI. SECTION 1. Congress shall have power to grant aid to the public school systems of the several states of the Union.

"SECTION 2. The aid so granted shall not exceed \$10,000 annually to be distributed pro rata among the states on the basis of illiteracy.

"SECTION 3. The appropriations so made shall be paid to the person or persons designated by an act of the legislature of each state which shall specify that the aid so received shall be expended for public school

purposes alone. SECTION 4. Congress shall not supervise the expenditure of the appropriations herein provided for. But it may require a report from the state officer or officers disbursing the same, and if it shall appear from said report that the aid so granted, or any part of it, has not been expended for public school purposes, then it may withhold from subsequent appropriations an amount equal to that not so expended."

### Indiana Tally Sheet Forgeries.

WASHINGTON, Jan. 12.-Attorney General Garland has appointed Judge Claypool, of Indianapolis, to assist the United State district attorney in the prosecution of the tally sheet election frauds at that city. Hon. William Hendersoa, representing the committee of one hundred-an organization composed of prominent men in either political party, for the purpose of purifying the elections in Indiana-yesterday tiled a petition with the attorney general, asking for the employment of Judge Ciaypool in the prosecution of the indictments now pending and to have a vigorous prosecution. The men under indictment are Democrats, and have brought a great deal of pressure to bear on the attorney general and the president to have ieniency shown them in the prosecution. The authorities here have assured Mr. Henderson, who is now in Washington, that the government will lend every assistance to the end that justice may be done.

Gathering of Wool Men.

Washington, Jan. 12.-There is a large gathering of wool mea here to-day from various sections of the country, who met in conference at the Riggs house this afternoon, for the purpose of uniting upon a wool-tariff declaration acceptable to the growers, dealers and manufacturers throughout the country. All three interests are well represented. Hon. John McDowell, of Pennsylvania; Hon. G. L. Converse, of Ohio, and others represent the wool growers; H. C. Dwight, of Bostoa; H. T. Thompson, of Chicago, and John Gonsarlus, of Troy, N. Y., represent the dealers, and William Whitman, of Boston, president of the National Colyer and Mrs. Wheeler were severely Association of Wool Manafacturers, and a but not fatally burned. ### House Committees

WASHINGTON, Jan. 12.—The house committee on naval affairs called upon Secretary Whitney this morning and paid their respects. The committee on foreign affairs wili perform a similar act upon Secretary Bayard to-morrow. The house committee on military alfairs has reported favorably the Bouteile resolution cailing upon the secretary of war for a report upon the proposed return of rebel flags, amended so as to include all states within the south.

### THE HOPKINS TRIAL.

Proceedings of the Second Day After the Holiday Recess.

CINCINNATI, Jan. 12.-Prosecutor Burnet took a back sout this morning and Assistant Prosecutor Bruce played the leading role in the Hopkins trial. Charley Hopkins, son of the accused ex-Fidelity cashier, who was not allowed in the court room Tuesday, took a

seat by his father's side this morning.

Mr. Hopkins had a severe chill Tuesday afternoon and looked pale and feeble this morning.

Upon the opening of the court Judge Sage ruled that the record of Harper's conviction would be admitted to establish a foundation upon which the evidence showing the guilt of Mr. Hopkins as acressory must be built.

J. W. Hoyt, armed with a bundle of damaging documents, re-amed his place on the

Mr. Bateman took up Account B and asked regarding the first transaction, Jaauary 10, 1886; "During that transaction and during sub-

sequent transactions dld Mr. Hopkins say anyone else was interested in them?" was asked of witness,

"I do not think he did. He bought for himself," was the reply.

The purchases ranged from 10,000 to 100,-000 bushels. Those with Irwin, Greea & Company covered a period of twenty-nine days. The payments were made in cash, and at the close of the last transaction witness turned over to Hopkins a profit of

In regard to Account B, Hopkins never gave an order without first consulting with Harper. Hopkins told wituess that Harper did not wish his name to be connected with the transactions at all. The understanding was that Hopkins was to draw the checks and Harper would take them up.

Mr. Hoyt would meet Hopkins oa 'change, and some time at Davis' cigar store on Vine street, but before giving an order Hopkins called up Harper by telephoue and received his instructions.

When Hopkins telegraphed to Mr. Hoyt, the witness at Deihi, June 14, 1887, to go to Chicago and meet Joe Wilshire, the message was to the effect that "The Pope" wauts you

to go to Chicago. "The Pope!" ejaculated Mr. Bateman, in a

tone of great surprise. that Mr. Harper should be designated as the | treated us very respectfully."

This reply convuised the crowd in the court room with laughter. No attempt was made to suppress it.

'Martiu" in Chicago, whom he afterwards was told was Mr. Al Galir. "Do you know Mr. Gahr?"

"I don't know. I've seen a man called Gnhr." Witness Hoyt said that his dealings in regard to the purchases of wheat were with Mr. Hopkins.

Witness had kept four accounts for Hopkins: A, B, E and 7. E was Harper's account. A was Hopkins' personal account. There was charged up to Account 7, i00,000 bushels of May wheat, which was paid for by Hopkins by letters of credit and drafts, Account E was opened May 5, 1887, when 100,-000 bushels of wheat were purchased under instructions from Hopkins. The cross-examination of Hoyt began a short time before court adjourned.

Miss Josie Hoimes will probably testify Friday.

### THE FIRE RECORD.

### Three Persons Burned to Death in a Poor House-Other Fires.

BIRMINGHAM, Conu., Jan. 12.-Fire in East Village, near Munroe, destroyed the aims house and an adjourning building early this morning, and three persons were burned to death. Thomas Colyer, who sleeps in the poor house, was awakeued about 3:30 o'clock by failing dishes, and seeing the flames in the building adjoining the poor house gave an alarm and tried to arouse the inmates of the alms house. He theu rushed into the dweiling where Mrs. Wheeler, the owner of the building lay sleeping The smoke was suffocating but Colyer groped through it to the bed of Mrs. Wheeler and carried her outside in safety. The aims house was by this time in flames and Colyer rushed into it giving

an alarm and trying to awaken the innutes. There were twelve persons in the poor house, and Colyer assisted niae of them to escape from the burning building, three of them perishing before he could reach them. The paupers and Mrs. Wheeler suffered severely from insufficient ciothing, as aothing had been saved from the building. They were obliged to take shelter in an out house while waiting for heip from the neighbors.

Colyer and Mrs. Wisceler were severely

### Fire in a Hotel.

GOSHEN, ind., Jan. 12. - The Julian house, the second hotel in size in the city, hurned at midnight. The thre caught in the oil room. There is a strong suspicion of incendiarism expressed. Gueste to the number of thirty or forty escaped in their night ciothes, and it is feared several perished. The loss, with the other property destroyed, is estimated at \$7,000; insurance about \$2,000.

Groceries Destroyed. WHEELING, W. Va., Jan. 12.-Fire in John S. Weity's grocery at 8 o'clock this This support will be given for a year if morning caused a loss of \$100 to building and needed. \$15,000 to stock by water. Insurance on stock of \$11,000.

SETTLEMENT OF THE READING STRIKE POSTPONED.

But Three of the General Executive Board Meet in Philadelphia-A Belief That President Corbin is Relenting-Various price. Other Labor Dispatches.

PHILADELPHIA, Jan. 12.-Notwithstanding the fact that all of the members of the general executive board of the Knights of Labor, were notified to return to this city, only three could be got together, and this being less than a quorum no official action could be taken in reference to the Reading strike. An informal conference was held with committees of the miners and railroad employee last evening, when the matter was talked over. The outcome of this conferance was a public statement, signed by Hayes, Barry and Aylesworth, the three members of the board present, approving the strikes of both the miners and railroad

Had a full meeting of the general board been held something might have been done to bring about an early settlement of the trouble. As it is, it looks very much as though two or three of the members of the general executive board were afraid to take hold of the big Reading strike. It may be in their opinion a dipiomatic move, but in the eyes of the public and the strikers it only appears to be a case of afraid to act.

As it now stands, the conference has pnt off rather than hastened a settlement. The railroad men and miners will now be more determined than ever to have their fights stand or fall together, and the Reading company wili be still more determined not to submit the matter to arbitration.

President Corbin Relenting. PHILADELPHIA, Jan. 12.—The committee of

business men from towns in the Schuylkill region had a conference with Presideat Corbin, General Manager McLeod and Director George B. Dekeim this morning, and from what can be learned of what was said it seems President Corbin has relented a good deal and showed considerable inclination to treat

with the miners, Promptly at 11 o'clock the committee called at the Fourth street office. They are W. S. Graham, G. C. Shrick, W. H. Shumar, William Hall, of Sackville, and Mahoney Plane; P. J. Biraringham, William J. Yeo and Adam Sala, of Girardville; W. S. Thirlwell, N. Graeber and J. B. Price, of Ashland; P. G. Murphy, of Mount Carmei; John H. Kurtz, M. J. Whaien and Issacier Robbins, of Shenaadoah, Mr. Kurtz acted as spokesman and introduced his colleagues. President Corbin shook each member of the conmittee by the hand. What followed is not exactly known. The conference lasted over an hour and when the committee came out each was smiling.

M. J. Whalen was asked to tell what took place. He said: "Mr. Kurtz was our spokesman and he will tell you; all I have to say is that we are all very well satisfied with the result of the (anference.)

Mr. Kurtz said: "All I can say is that Mr. "Yes, the l'ope. It was the understanding Corbin is a gentleman in every respect and

"Can you tell us what conclusions you reached?

"No, I cannot; we simply presented our resolutions and, of course, tried to induce Witness said he was introduced to a Mr. Mr. Corbin to make some treaty with the

"What was Mr. Corbin's attitude?" "That i nm not at liberty to say; but i will say that Mr. Corbiu appears to be willing to meet the men half way."

"Do you think there is any possibility of au sariy settlement of the miners' difficulty f" "I have nothing more to say at present," replied Mr. Kurtz, as he hurried off to catch up with the rest of the committee, who had left him to the tender mercies of about twenty reporters.

Mr. Corbin was seen after the conference and was asked if he would tell what took

"No," said he, "I promised the gentlemen not to say anything about it, as they did not wish anything made public until after they had talked the matter over among themselves, and decided that if another conference was necessary. The committee will hold a meeting at their headquarters at Green's hotel, and decide whether another conference

is necessary." There is no change in the aspect here today. Everything is quiet, and the men exultant over the action of the general executive board of the Knights of Labor, which while not official, is favorable to the strikers, ' and a month's pay given them to-day, that amount being due to them up to date.

### Evicting Striking Miners.

WILKESBARRE, I'a., Jan. 12.-Ario Pardee, of Hazleton, began ejecting his striking miners yesterday. He has flied in the office of the prothonatary the lease between the company and Thomas Gray, one of his striking employes. The lease is of exactly the same ironclad species as those in the famous Haziebrook eviction cases. By it the tenant waives every right and protection he has under the law. He agrees that the company shall retain the rest out of his wages, confesses judgment for an amount of rent which is left blank for the company to fill in, and also signs the provision styled an "Amicable suit in ejectment," by which, without hearing or trial, he stands convicted of trespass on the premises and can be ejected on five days' notice at any moment. On this "amicable snit" a writ of ejectment was issued against Thomas Gray and placed in the hands of the sheriff, and wili probably be served to-day and Gray and all his family thrown out. This, it is understood, is a test, and if the proceeding goes through, a wholesale system of eviction will be inaugurated.

### Pittsburg Labor News. PITTSBURG, Jan. 12.—The firm of Jones &

Laughlin have signed the steel scale. The mass meeting of Scott's miners at Industry voted to strike. There were only three dissenting votes. The Knights of Labor and Annigamated association miners promise to pay each striker \$4 a week and each head of a family fifty cents a week additional for each child under fifteen years.

Superintendent Hossack, of Scott's mines, said the men were violating their agreement

with Mr. Scott and that they would not get

the increase. Bliss & Marshall, coal operators a Diyphant, yesterday posted a notice of 5 per cent. reduction of wages. Their employes after a mass meeting decided to resist this by striking. Upon learning of the men's action the firm to-day removed the notice. This firm did not advance its rate of wages last fall when coke was selling at a higher

### Naiters Troubics Fixed Up.

PITTSBURG, Jan. 12.—Secretary William Martin returned from Wheeling this morning. He went there to fix up the trouble among the nailers. He was successful in bringing ail the old nailers and the new ones together into the Annalgamated Association, and consequently everything is now in satisfactory condition.

### NINE KILLED AND MANY INJURED.

### A Frightfut Accident on the Boston Maine Railroad at Bradford, Mass.

HAVERHILL, Mass., Jan. 12.—The Portland express on the Boston & Maine road, which left Boston at 1 p. m. Tuesday, was passing Bradford at full speed when two cars left the track and crashed into the water tank house, where some section hands were eating dinner. 'William Taylor, one of the laborers, and John O'Brien, a retired merchant, who happened to be talking to the men, were both killed. The heavy water tank feil upon one car, doing fearful work within.

The next car behind telescoped the one ahead of it, adding to the havoc. The killed and wounded were mostly in these two cara. The smoker, with a broken truck, ran out upon the ties of the high iron bridge spanning the Merrimac river and finally leaned up against the side of the bridge, which withstood the shock and saved the thirty passesgers from a terrible fall of 100 feet to the frozen river below.

There were seven passengers and two outsiders killed and many were wounded, sev-

eral fataliy. A breaking switch rod is supposed to have caused the accideat.

Experience of One of the Passengers. DOVER, N. H., Jan. 12.—Charies L. Clark and wife, of New York city, passengers of

the ill-fated train which met with the accident yesterday afternoon, arrived here last night. Mrs. Clark complained of severe bruising about the chest and ribs as when the crash came they were thrown over the next seat. Mr. Clark said the first intimation he had that anything was wrong was the bumping of wheels and crashing of glass, How they got out of the car is a mystery to him. He heiped afterwards to take the

A Wreck Out West. HELENA, Mont., Jan. 12.-Last evening local passenger train No. 6, on the Union Pacific road, bound east, ran off the track near Gray Bluif, Mont. At the point where the train left the track the snow was drifted so that the wheels of the locomotive ran upon it and left the rait taking the train with it. The entire train was drngged out on the prairie and left the track unobstructed. The locomotive and tender feii over on their side when momentum ceased. Engineer Hugh Monroe, who stood at the throttle, in attempting to jump from the cab when the engine stopped, sprang the wrong way. He was crushed beneath the tender. ### ROBBED UNCLE SAM.

### Indictment of the Assistant Postmaster of Knoxville, Tennessee.

KNOXVILLE, Tenn., Jan. 12.—A sensition was created in the United States circuit court here when the grand jury returned an indictment against P. H. Sansom, charging him with appropriating and enabezzling \$3,700 of government money. Sansom has been assistant postmaster here for the past two years, and seemingly had his books in.

good shape. An examiner recently found a discrepancy in his accounts amounting to about \$3,700, his peculations having extended over a year. Friends of the unfortunate man paid the shortage in full, but the government does not seem satisfied with a settlement that way. Sansom is now on bond, and will probably be tried by this court. He has excellent business qualifications, and is well connected in Knoxville. Mrs. Sanson is the youngest daughter of the famous Felix K. Zollicoffer.

### Attacked By Apaches.

TOMBSTONE, Ariz., Jan. 12.—Superintendent Russell, of the San Pable mine, Sonora, arrived here to-day and says a prospecting party of four men were attacked, uinety miles south of East Vascassard, on Christmas day by Apaches. One prospector named Jacobs was killed, and Big Jake Offer was mortally wounded. The other men fought the Indians off and then escaped. The Indians succeeded in getting some burros and provisions from the party. The band is thought to be the same that escaped from Miles, near San Bernardino ranche, at the time of Geronino's surrender and have since been raiding southern Sonora.

### Coasting Accident.

SCRANTON, Pa., Jan. 12.-A party of eight young nieu were coasting at Dulton last evening with a boh sled. While the sled was running at the speed of forty miles an hour it struck a young son of 'Squire Montgomery, lifting him from the ground and threw him about ten feet behiad the sled, breaking one of his arms and a leg. The accident overturned the sled. Warren Terwilger, who was steering the bob, was thrown off so violently as to break his upper jaw bone, and he received several ugly bruises about the head. The other young men escaped with a few scratches.

### Beck Be-Elected.

At the joint session of the Legislature yesterday James B. Beck was re-elected United States Senator. The Republicans voted for Colonel W. O. Bradley and the Laborites for A. H. Carlin.

Ir Arbuckle has to pay Miss Campbell that \$45,000, it will take him some time to sell enough coffee to settle for his h's to take any more of 'em at that rate.

" IT was not because Lowell said Cleveland is the best President the county has had since Lincoln," remarked the Louisville Times, "that the Republican organs are so mad, but because so many people believe him,"

In speaking of John W. Alexander, the Democratic nominee for Sheriff, the Dover News says: "His business qualifiestions and experience eminently fit him for the proper discharge of the duties he se soon to enter upon, and we will venture the assertion that he will toe the line his predecessors have drawn."

TRE Maysville council has just passed a her ordinance, forbidding the feative porker te roam at large through the streets and alleys. This was all that was lacking to make Maysville a city in fact as well as in name.-Portsmouth Tribune.

Speaking of that ordinance the officers do not seem disposed to enforce it. Hoga can still be seen nosing around on the etreets any day.

THE "Southern Exposition" at Louisville last fall was a magnificent-failure. Its affairs are now being wound up and its liabilities are found to amount to about \$196,000, while its sesets consist of the machinery &c, at the exposition building. The Falls City takes the lead when it comes to selling tobacco and in many other respects, but she wants to let expositions alone.

Whan gamblers are fined now they may as well toe the mark and pay the penalty. Gov. Buckner has served notice that they meed not expect Executive clemency. In refusing to grant a recent petition for the remission of such a fine, he said:

"When the State has been compelled to luenr berry expenses to enforce the observance of law, it is but just that those whose violations of the law have caused these expenditures should be compelled to relmbnrue the Stale to the extent authorized by law."

How often is the light of the household clouded by signs of melancholy or irritability on the part of the ladies. Yet they are not to be blamed, for they are the result of allments peculiar to that sex, which men know not of. But the cause may be removed and joy restosed by the use of Dr. Pierce's "Favorite Prescription," which, as a tonic and nervine for debilltated women, is certain, safe and pleasant. It is beyond all compare the great leader of women.

### THE CANALS OF MARS.

WHAT ASTRONOMER SCHIAPARELLI SAW THROUGH HIS TELESCOPE.

iome Remarkable Appearances Which He Noted-Is Mars Inhabited?-Facts Which Soom to Call for an Affirmative Answer.

It was in 1877 during a favorable conjunction of Mars-that is to say; at the time when Mare was unusually near to the earth—that Schiaparelli first saw the canals. It will be recollected that in that same year Professor Hall discovered the two tiny meons of Mare with the great telescope at Washington, an instrument in comparison with which Schiaparelli's telescope is a pigmy, and yet, so far as we are aware, the canals were never seen with the Washington telescope. This fact, however, is by no means decisive, for in the first place Schiaparelli's telescope, though comparatively small, is of acknowledged great excellence; secondly, and more important, the skies of Milan are incomparably clearer and better suited to delicate telescopic observation than those of Washington; and and k'a. And he will no doubt decline lastly, Schiaparelli, who possesses exceptionally sharp vision, like the celebrated Dawes, of England, was engaged in the special study of the features of Mars' surface when be made the discovery. It may be added that last year three olsservers-M. Perrotin and M. Pollon, at Nice, and Mr. Denning, in England-succeeded in seeing the canals of Schiaparelll, and detecting some of the exceptional appearances which he noted. When Schiaparelll first saw the canals in 1877 they appeared as single lines, but subsequently be found them double. He even watched the process of doubling, which was a very curious phenomenon. But we will let him speak for himself, as quoted by M. Flammarion:

"There are upon that planet great dark lines, traversing the continents, to which may be given the name of canals, aithough we do not yet know what they are. Various astronomers have already detected several of them, notably Dawes in 1864. During the last three oppositions I have made a special study of them and have recognized a considerable number, more than sixty. These lines run from one to another of the dark spots that we regard as seas, and form a well defined network over the light or continental regions. Their position appears to be invariable and permanent, at least according to the judgment I have been able to form by four and a half years of observation; nevertheless their aspect and their degree of visibility are not always the same, and depend upon circumstances which the present state of our knowledge does not yet permit us to discuss with certainty. In 1879 many were seen which were not visible in 1887, and in 1882 those that had already been seen were detected again, accompanied by new ones. Several of these canals present themselves under the form of vague, shadowy lines, while others are clear and sharp, like a mark made by a pen. In general they are rectilinear, that is to say, drawn upon the sphere as lines of great circles. They cross one another obliquely, or at right angles. They are fully two degrees broad, or 120 kilometers, and number extend over a distance of eighty degrees or 4,800 kilometers.

"Their color is very nearly that of the seas of Mars, but a trifle lighter. Every canal or one extremity ending in the middle of the speech of thanks. sold land That is not all. In certalu seaorns these canals split up or, rather, become

"This phenomenon appears to occur at a "xed time, and is produced simultaneously over the whole extent of the continents of the planet. No indication of it was shown to 1877 during the weeks which preceded and collowed the southern solstice of the world. A single isolated case was presented in 1879; the 20th of December in that year (a little before the spring equinox, which occurred on the 21st c January, 1880), I remarked the lividing. the Nile between the Lake of the Moon and the Ceraunique gulf. These two regular markings, equal and parallel, caused me, I admit, profound surprise, the greater because some days before, the 23d and the 24th of December, I had observed with care this same region without perceiving anyliling of the kind. I awalted with curiosity the return of the planet in 1881 in order to learn if any analogous phenomenon would present Itself, and I saw the same thing reappear the 11th of January, 1882, a month after the spring equinox of the planet (which occurred on the 8th of December, 1881); the livision was still more evident at the end of February. On this same date, the 11th of January, another doubling maulfested itself, that of the inkldle section of the Cyclops ca-

nal, on the side of the Elysee, "Grenter yet was my astonishment when, the 19th of January, I saw the canal of Jamuna, which was then in the center of the disk, divided very accurately into two straight, parallel lines traversing the space which separates the Niliuque lake from the Gulf of Aurora. At first I thought it to be au illusion, caused by fatigue to the eye and a sort of strabishnus of a new kind, but one must needs yield to the evidence. After the 19th of January I simply passed from one surprise to another: In succession the Orontes, the Euphrates, the Phison, the Ganges and more of the other canals showed themselves very clearly and incontestably split in two. There were not less than twenty ex-

amples of doubling.
"In sertain cases it has been possible to observe some precursory symptoms which are not lacking in interest. Thus the 18th of January a light and ill defined shade extended slong the Fanges; the 18th and 19th only a series of white spots was distinguishable there; the 20th the Ganges showed forelf in the form of two Indecisive parallel itms, and the 21st the doubling was perfectly clear, as I observed it up to the 23d of February.

"These deublings are not an optical effect depending upon the increase of visual power, as happens in the observation of double stars, and neither is it the canal which divides itself in two lengthwise. Notice what it is that appears: to the right or left of a pre-emisting line, without any change in the course or position of that line, one sees another line produced equal and parallel to the first, at a distance varying generally from 6 to 19 degs. that is to say, from \$50 to 100 kilemeters; there even seem to be seene produced still nearer, but the telescope is not powerful enough to enable one to distinguish them with certainty. Their tint is a rather dark reddish brown. There twin camals are rectilinear or very slightly ourved. There is nothing analogous in terrestrial geography. Everything points to the ballet that it is a peculiar periodical phenomencu of the planet Mars, and intimately related to the course of

crease in the distance of the planet and the prevalence of rains prevented the continue-Pebruary. It is difficult to decide quickly upon the nature of that geography, assuredly very different from that of our world."

### As Good as Gold.

"Why do you wear that nickel on your watch chain?" asked a city hall attache of a milkman who was after a board of health permit to peddle cow juice. "I wear it as a reminder to get even with one of my customers," was the answer. "Over a year ago I took that nickel, which was then beautifully goldplated, as a \$5 gold plece in payment of a bill. As soon as I detected the fraud I took it back to the woman who passed it on me, but she refused to make it good. So I attached it to my watch chain and kept on supplying her with milk as though nothing had happened. But now every day I make her quart one-fourth water, and once a week I credit her with one-fourth the amount of her milk bill in a book which I keep for that purpose. When the sum total standing to her credit is \$4.95 she shall have pure milk once more, and not until then. She knows the milk is watered, but whenever she shows an inclination to complain I handle the nickel and say that my milk is as 'pure as gold.' That settles it."— Buffalo Express.

### Favoring the George 10va.

NEW YORK, Jan. 12.-Mayor Hewitt, in his annual message, advises that the city tax upon personal property be abolished, and the amount raised from real estate instead, Though the mayor has heretofore combatted Henry George's arguments in favor of such a measure, he now admits that it would add greatly to the prosperity of the city. People, he says, would be attracted to the city as a place of residence and business, and the real estate owners would not be injured, because their property would rise in value as the population increased.

Death of a Well Known Stenographer. NEW YORK, Jan. 12 .- A. F. Warburtod. one of the oldest and beet known stenographers in the country, died to-day of pneumonia at the age of slxty years. A COMPLETE TRANSLATION OF THE CLICKS OF THE CABLE.

A Movement in Paris to Establish More Priendly Relations Between France and Russia - Dynamiters' Trial Postponed. Various Other Foreign News.

LONDON, Jan. 12.—One of the latest fads in Paris is the attempt by a few enterprising and patriotic souls to inaugurate in a mild form a sort of Russomania in the circles which give vogue to new ideas. To be sure it can hardly be expected that Russian cussome will be adopted to any extent in the French capital evan in deference to the edicts of fashion

The Gaul has a horror of tea, which he never drinks except as medicine, and even Madame Adam, who heads the movement to draw the two nations into closer sympathy, could not succeed in maling the Russian "Samovar" tolerated by the visitors.

Despite the praises lavished upon them by some of the best critics, the works of Gogol, Turquenlef and Tolstoi have obtained few readers in France, and one look at the Russian alphabet would be sufficient to deter the average Gaul from desiring a further acquaintance with the language of those whom his is accustomed to consider as his allies of the future. It has suddenly dawned upon the French mind after an interval of more than thirty years that it was an ungracious act to carry away the few articles of booty sppropriated from the ruins of Sebastopol, and the appeal of Madame Adam to restore the sphinxes which ornamented the facade of the naval club in the city on the Black sea, and which have now stood for three decades in the garden of the Tuilleries, has excited much attention and comment, mostly favorable to the project.

Vladamir, too, which are respectively at the Hotel De Ciuny, and Notre Dame should also be restored, says the madame whose flery patriotism and hatred of Germany have been evinced by her appeals to the compatriots to cetracise all German music, especially that of Wagner. No one can see any impropriety in this restltution, and who can doubt that Russia, and particularly the city of Sebastopol, will gratefully recognize this indication of good feeling on the part of the French nation, tardy though it be. The flags which were captured in the Crimea have became the prey of the moth, and the cannon were melted into gaseliers, which light the Boulevard de Sebastopol, but the sphinxes can reach the Russian city just ln time to ornament the new bullding of the Nabai club, now nearly completed.

A grumbler in the Figaro speaks of the Prench cannon lost in Russia in 1812 and now in the court yard of the Kremiln at Moscow, and asks if the czar has shown any disposition to restore them, but the probabilities are that the sphinxes, the cross and the bell will go back to Sebastopoi, teaching, says one French journalist, a lesson to Germany, where every mantelpiece bears a clock stolen from the invaded provinces in the war of

### RAILROAD ROBBERS-

The Prosecutions Against the Pan-Handle

Employes to Be Resumed Monday. PITTERURG, Pa., Jan. 12.—Commencing next Monday, the various Pan-Handle railroad robbers, against whom the Pennsylvania company refused to enter a nolle pros, will be called upon to make a defense in the criminal court. Only seven or eight men, and they are the ring-leaders, remain to be tried. In a number of cases the defendants were released on their own reconizance and allowed to leave the city.

These were principally men who had made confession of their gullt, or were young men so slightly contaminated that the company did not care to prosecute them. Witnesses have been summoned from various states, and it is likely that the trials will take a full week. Assistant District Attorney Johnson, backed by John H. Hampton and Detective Gilkinson, will represent the commonwealth, while the defendants have various attorneys engaged. A hot fight is anticipated, but if the cases are as well prepared as the first three or four tried, there can be little doubt as to the result, and that is the defendants will be found guilty.
